HOW TO IDENTIFY YOUR LEVER MEASURE YOUR LEVER SHAFT WIDTH

GB3001 with 11mm offset pivot base is only made of cast aluminum and mainly suits earlier 1999-2000 W215/220 vehicles with key ignitions

GB3002 (cast aluminum) and **GB3005** (hi-strength plastic) with 5mm pivot base are the same lever just different materials and can suit W215/220/230 vehicles 2001-2005. These are not common levers – seldom used.

GB3004 (hi-strength plastic) and **GB3008** (Precision CNC Milled Aluminium) with 11mm straight pivot base are the same lever, and suit later model vehicles W215/220/230 (2001-2010)
